### **DETAILED ACTION**

1. This office action is in response to Applicant's amendment filed on 8 September 2006.

#### ***Allowable Subject Matter***

2. Claims 4, 6, 21, 23, and 28-37 are allowed. Claims 4, 21, 23, and 28-30 are the independent claims.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent 5,487,626 to Von Holst et al., which was applied to the claims in the office action mailed 9 June 2006. Suffice it to say, Von Holst et al. does not disclose "the threaded portion being coated with a PVD coating and the at least one flute comprising interconnected flanks having exposed surfaces that are steam tempered but not coated with the said PVD coating" as claimed in claim 4, "steam tempering only the exposed surfaces of the flute" as claimed in claim 21, or "coating the said threads and teeth with a PVD coating and steam tempering the exposed surfaces of the flute" as claimed in claims 23 and 28-30, and as such does not anticipate the instant invention as disclosed in independent claims 4, 21, 23, and 28-30.

Art Unit: 3722

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Von Holst et al., and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claims 4, 21, 23, and 28-30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
